President, Association of Consulting Engineers, Singapore

Dear Sir/Mdm

IMPLEMENTATION OF SS 667 : 2020 – CODE OF PRACTICE FOR HANDLING, STORAGE AND PROCESSING OF COMBUSTIBLE DUST

The SS 667 : 2020 – Code of Practice for Handling, Storage and Processing of Combustible Dust was officially launched by Enterprise Singapore on 19 May 2021. This standard sets out the requirements and recommendations to help in the prevention of fires and explosions that could result from the ignition of suspended, fine solid particles within an enclosure or buildings handling such materials.

2. Please be informed that the standard shall be applicable to all building plans that are submitted to SCDF for approval from 01 December 2021. This grace period is given to the building industry to plan for any new building projects. Any proposed plans of fire safety works for new buildings / premises or alteration / alteration works to existing buildings / premises that are submitted to SCDF for approval on or after the effective date will be subjected to the new standard. Notwithstanding the above, SCDF has no objection to the immediate adoption of the standard.

3. Please convey the contents of this circular to members of your Institution/Association/ Board. The circular is also available in CORENET-e-Info: <http://www.corenet.gov.sg/einfo>.
